WORK EXPERIENCE

Software Engineer Engross Infotech

05/2023 - Present

Surat, Gujarat

Responsibilities

- Currently collaborating to an international e-commerce project integrating KnockoutJS, Java, Bootstrap, JQuery, and SQL technologies.
- using Jenkins for CI/CD and Docker for Containerization. Collaborating with an offshore team utilising Agile methodology across multiple time zones.
- I have developed a webapp solution for a client from scratch utilising ReactJS, ExpressJS, MongoDB, and cloud services such as AWS.

Jr. Software Engineer OSD Solutions

05/2021 - 06/2023

Surat, Gujarat

Tasks

- worked on multiple projects using ReactJS, NodeJS, MongoDB, Dynamo DB, SQL, Javascript, Bootstrap, and Git. I also designed, built, and maintained web application.
- Implemented microservices architecture with Golang, NestJS, and NextJS frameworks. Used Redis database and technologies such as RabbitMQ, Jenkins, and Jira for CI/CD.
- WebApp solutions have been deployed on the AWS and Azure cloud platforms.
